

An outdoor patio scene featuring a large stone fireplace with a fire, a wicker sofa with blue cushions and patterned pillows, a matching armchair and ottoman, a round wicker chair, and a coffee table with a bowl of fruit. The patio is paved with grey and tan stones. The background shows a green lawn and some landscaping.

ICON LEGEND

Products are manufactured using Proguard technology.

Products are manufactured using PG Plus technology.

Products are able to be installed as permeable paving stones.

Use of a plate or roller compactor is recommended. If using a plate, a protective pad should be used to protect the paving surface.

The use of compaction equipment is not recommended and may void warranty.

Product falls under dry cast product warranty.

Product falls under wet cast product warranty.

PROGUARD

SMOOTHER SURFACE TEXTURE AND WEAR RESISTANCE WITH PROGUARD

Proguard is an R.I. Lampus Company proprietary mix design and production process with a tight, attractive surface that more closely resembles natural stone. This manufacturing process combines a traditional base mixture of coarse aggregates with a surface mixture of fine, durable materials. In addition to durability, the surface layer keeps the larger aggregates from exposure over the life of the paver, making Proguard pavers significantly more wear resistant.

PG PLUS

ANDROID: USE ANY QR CODE READER APP

ENHANCED SURFACE PROTECTION AND BOLDER COLORS WITH PG PLUS

As an addition to the Proguard system, PG Plus incorporates integral admixtures and an in-line treatment that is applied during the manufacturing process, affording you longer-lasting benefits, unlike topical sealers applied after installation. The application of this integral system allows for bolder colors, fade resistance, stain resistance, and greater protection from environmental effects like acid rain. In addition to the direct product benefits, you can also rest easy knowing that PG Plus is an environmentally friendly, water-based system.

Alliance

QUALITY IS OUR STRENGTH

GATOR BASE

Ideal for Concrete Pavers, Porcelain Tiles and Natural Stones

The Gator Base system is an excellent alternative to traditional base material systems for patios and pedestrian applications, especially when the job site has tight and, limited access.

ADVANTAGES:

- Less job site excavation
- Reduces overall installation time
- Replaces 6 inches of crushed stone base material
- Ideal for large format pavers & slabs
- Tolerant against rain showers
- Reduce the chance of paver movement
- Can be applied with heated paving system up to 122°F
- Can support an 18" seating wall
- Made of durable engineered material that will not degrade over time
- The perfect product for hard to access job sites

GATOR MAXX G2

Ideal for Paver and Natural Stone Joints up to 4" in a traditional application, and 2" in an overlay application.

ADVANTAGES:

- No Dust
- Haze Free
- No Blower
- One Watering
- Rain Safe in 15 Minutes

GATOR BOND XP

POLYURETHANE ADHESIVE
LOW VOC

- Overlays & Pool Copings
- Steps & Wall Caps
- Dry & Damp Surfaces
- Fire Pits (up to 400°F)
- Concrete Pavers & Bricks
- Wetcast & Natural Stones
- Retaining Walls
- Masonry Units

GATOR GRID

GG 30-30, a biaxial geogrid, provides strength, longevity, excellent stress transfer and helps prevent failure to the internal structure of your staircases, patios, landing areas & retaining walls.

ADVANTAGES:

- High Tensile Strength
- Biaxial - Installed in both directions
- No Memory - Lays flat when unrolled

GATOR NAILS

Gator Nails are high quality nails which are available in lengths of 10" and 12", common or spiral models. Gator Nails are designed for use with paving stone edge restraints.

WE ARE PROUD TO CARRY AN EXTENSIVE LINE OF ALLIANCE ACCESSORY PRODUCTS INCLUDING POLYMERIC SANDS, GRIDS, FABRICS, ADHESIVES, AND CLEANERS. CONTACT US FOR A FULL LIST OF AVAILABLE PRODUCTS.

Techniseal®

Protect and Beautify

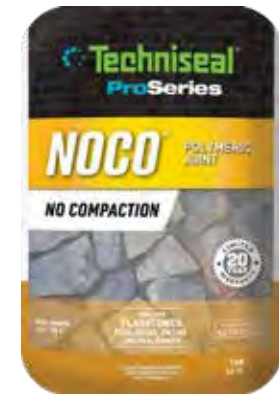

SMART SAND

Your choice for residential projects, requires mechanical compaction.
Ideal for joints 1/16" - 1" wide

HP JOINTING SAND

For residential, commercial, and industrial projects where mechanical compaction is possible/mandatory.
Ideal for joints 1/16" - 2" wide.

NOCO

For residential, commercial, and industrial projects where mechanical compaction is either not possible or traditionally not used.
Ideal for joints 1/4" - 4" wide.

NATURAL LOOK

- Matte Finish
- Penetrating Sealer
- Preserves the natural look
- Ideal for slip-prone surfaces
- Stain guard - repels contaminants

For concrete, clay & wet-cast pavers, poured concrete and natural stone

COLOR BOOST

- Matte Finish
- Penetrating Sealer
- Color enhancement
- Ideal for slip-prone surfaces
- Stain guard - repels contaminants

For concrete pavers & natural stone

WET LOOK

- Gloss Finish
- Film-Forming, All-In-One Sealer & Joint Stabilizer
- Enhances the color of pavers
- Stabilizes sand or aggregate joints for paving stones
- Stain guard

For concrete & wet-cast pavers, natural stone & aggregates

STRUCTURE BOND

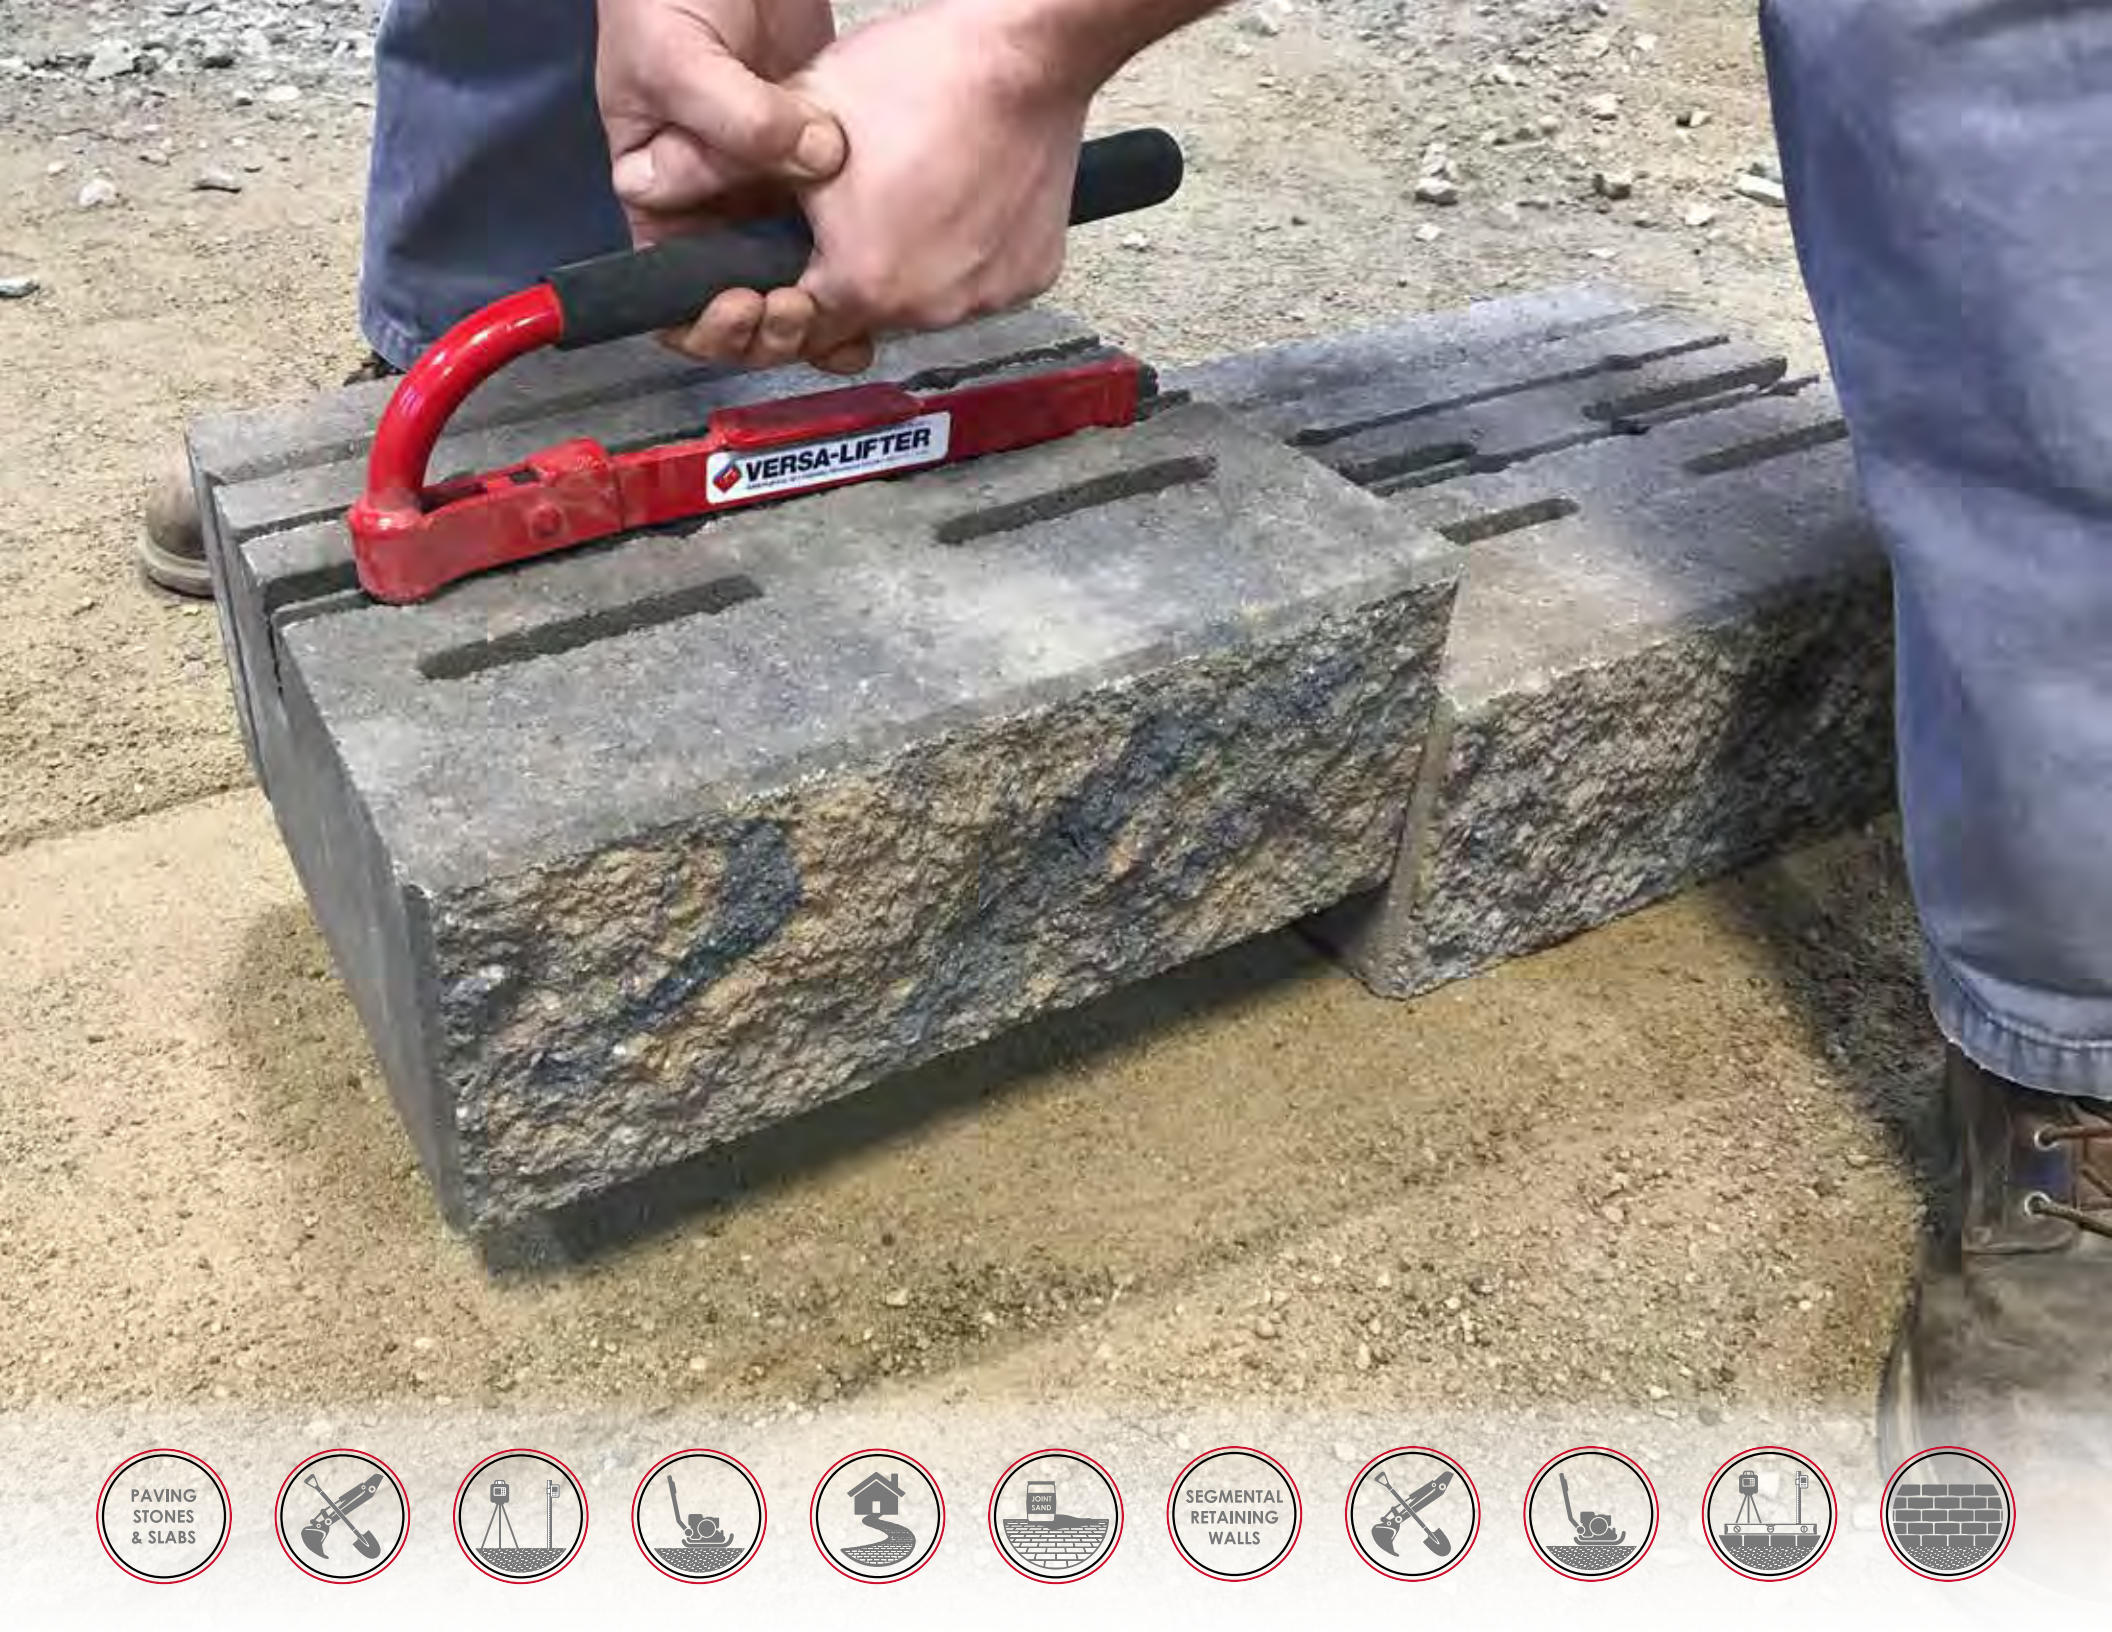

- Foam Adhesive
- Gun Cleaner

STRUCTURE BOND

- Applicator Gun

WE ARE PROUD TO CARRY AN EXTENSIVE LINE OF TECHNISEAL ACCESSORY PRODUCTS INCLUDING POLYMERIC SANDS, SEALERS, AND ADHESIVES. CONTACT US FOR A FULL LIST OF AVAILABLE PRODUCTS.

PRODUCT WARRANTY

R.I. Lampus Company guarantees that all dry cast wall and paving stone products meet or exceed the requirements of ASTM C-1372 for walls and ASTM C-936 for paving stones. This warranty is limited to the original purchaser for residential applications installed and maintained according to R.I. Lampus Company installation guidelines or industry standards. Damage sustained as a result of improper installation or design, chemical application, excessive loading, or other misuse is expressly excluded from this warranty. Should any dry cast product prove defective, it will be replaced without cost. Replacement labor and shipping costs are not included in this guarantee. Proof of purchase is required. Retain the warranty tag with batch information for all claims.

R.I. Lampus Company specifically disclaims any warranty relative to color, color consistency, or texture due to natural material variations. Color matching of any replacement units cannot be guaranteed. Efflorescence, a white deposit, common on concrete and masonry surfaces, is a natural occurrence and no warranty or liability is expressed or implied for this condition.

Wet cast products, including Rosetta® Hardscape Products manufactured by Omni Precast Products, Inc and distributed through R.I. Lampus Company, are backed by a lifetime warranty from the manufacturer to the original end user for products used in residential applications. This assurance of product quality is applicable where products have been correctly installed to manufacturer's specifications or industry standards. Any properly installed hardscape material manufactured by Omni Precast Products, Inc that deteriorates due to the concrete in the product not meeting the design strength specification will be replaced by the manufacturer of the product. Replacement labor and shipping costs are not included in this guarantee. Proof of purchase is required. Retain the warranty tag with batch information for all claims. The following items are not covered by this warranty: color variances and the appearance of surface stains resulting from chemical reactions such as efflorescence or differential curing, damage caused by installation, deterioration caused by de-icing salts or fertilizers, damage resulting from sub-grade settlement or movement, hairline cracks that do not affect the structural performance of the products, spalling of less than three percent of the surface area, contact with chemicals or paint, discoloration due to airborne contamination, staining, oxidation, or improper sealing.

COLOR DISCLAIMER

The colors of products shown in this catalog are to be used as representations or guidelines only. The photographic and printing processes are not fully capable of reproducing exact colors of all products. Colors may also change from production run to production run. All products are not warranted as always available in all locations, and R.I. Lampus Company may change, amend, add, or discontinue any product shape or color at the sole discretion of R.I. Lampus Company with no prior notification. Not all colors are available in all shapes. Check with the sales department for availability.

To assure random color distribution, it is recommended that individual blocks be mixed from different pallets on the job site. Actual product colors may vary slightly. We recommend that products be viewed at your local distributor location. Special order colors are available upon request.

PRODUCT MAINTENANCE

The face of retaining walls can be stained due to mineral and moisture laden soil in the backfill area as well as from the environment. Cleaners and sealers are available for routine wall maintenance.

Cleaners and sealers are available for surface enhancements and protection when necessary. Any concrete products used for stair tread applications may require a protective sealant to resist adverse effects of de-icing agents.

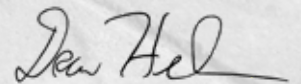

Snow can be shoveled or plowed from pavers as readily as other pavements. High strength, low absorption R.I. Lampus Company pavers are more resistant to de-icing salts than ordinary concretes, but they can still be damaged by intense applications. Sealers will help to protect the surface.

R.I. Lampus *Company*

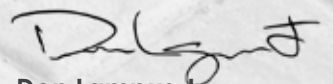

S I N C E 1 9 2 4

This past year has brought private outdoor spaces to the forefront of everyone's needs. With Staycations being more relevant than ever, we hope that you entrust Lampus with your plans to expand your outdoor-living space. After 97 years in business, R.I. Lampus Company continues serving our local community here in the Western Pennsylvania Tri-State area. We take great pride in our fourth generation, family-owned company, and we couldn't do it without you.

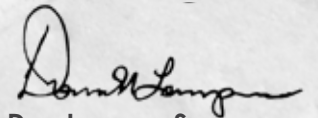

On behalf of the R.I. Lampus Company, we'd like to say thank you for your interest in our Hardscape products and for your continued support.
