TECHNICAL DATA SHEET

Update: August 18, 2016
Make sure you have an updated data sheet on hand.
Canada and U.S. dial 1-855-847-7767 or (450) 624-1611

Description: **Gator Hybrid Seal** is acrylic copolymer used to seal concrete pavers. It penetrates deep into the concrete paver pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.

For use on: For Dry Cast concrete pavers.

Features:
- Works above 40°F (5°C)
- Vibrant color enhancer
- Breathable
- Can be applied on damp surface
- Film former
- Joint stabilizer
- Rain-safe after 24 hours
- Can be applied on damp surface

Helps resist:
- Corrosion from de-icing salt
- Effects from UV rays
- Motor oil and grease stains

Coverage: Coverage will vary depending on joint size and porosity of the surface of the concrete pavers.

Options for Using GATOR HYBRID SEAL
1. Can be used as a stand alone sealer. Apply at the rate of 200 sq.ft. (18.5 m²) per gallon. Spray on the surface and back roll if needed to even out the surface.
2. Can be used as a Sealer/Joint Sand Stabilizer w/ ASTM C144 Sand. Apply at the rate of 100 sq.ft. (9.3 m²) per gallon, then force the excess sealer from the surface into the joints using a squeegee or roller.

Please Note
1. Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer’s for their recommendation.
2. ALWAYS TEST the product on a small hidden area of approximately 4 sq.ft. (0.4 m²) to ensure the results will meet your expectations.
3. Clean the entire surface with the Gator Clean Efflorescence Cleaner. This product will remove the efflorescence trapped in the concrete paver pores, as well as thoroughly clean the surface for proper sealer adhesion.
4. Do not apply if rain is expected within 24 hours.
5. Do not allow sealer to puddle.
6. Temperature should be between 40°F (5°C) and 85°F (29°C) when sealer is applied.
7. Concrete paver surface must be cool to the touch when sealer is applied (between 40°F (5°C) and 85°F (29°C)).
8. Gator hybrid Seal is water repellant, rain safe, after 24 hours
9. Let the sealer dry for 24 hours before using the sealed area.
10. Wear protective gloves, eye protection and respiratory protection.
LIMITED WARRANTY:
Before applying the product, the user/buyer must determine its suitability for intended use and user/buyer assumes all risks in that regard. It is a condition of the Limited Warranty that before using the product on the intended larger area, the user/buyer must first test the product on a small less observed area of approximately 4 sq.ft. (0.4 m²) to ensure results meet user/buyer's expectations. In the event that no test is carried out, the Limited Warranty will only apply to 4 sq.ft. (0.4 m²). Alliance Designer Products Inc. cannot guarantee results as it has no control over surface preparation and product application. If this product is proven to be defective, on the condition that it was applied pursuant to the required method of application and surface preparation, the sole obligation Alliance Designer Products Inc. is to refund the purchase price. Proof of purchase is required for any claim. Alliance Designer Products Inc. shall not be liable for any other damages whatsoever, direct or consequential. To the extent permitted by law, Alliance Designer Products Inc. excludes any implied warranty of quality, merchantability or fitness for purpose.

Alliance Designer Products shall not be liable for any non-compliant use.

*The container must at all times be stored at above 32°F (0°C) to receive the benefit under the Limited Warranty.

Keep out of reach of children. Mild eye and skin irritant. Avoid inhaling vapor or mist. Avoid contact with eyes. Avoid prolonged or repeated contact with skin. Flush with running water after use. Avoid mixing with other chemicals. If swallowed, call the poison control center nearest you.

Coating Category: Waterproofing Concrete/Masonry Sealers. VOC Concentration Limits:
<100 g/L (grams of VOC per liter of coating,
less water and less exempt compounds).
SCAQMD compliant.

TECHNICAL DATA SHEET

Update: August 18, 2016
Make sure you have an updated data sheet on hand.
Canada and U.S. dial 1-855-847-7767 or (450) 624-1611

Description: SIGNATURE GATOR SEAL FOR NATURAL STONE is made of silicone based polymers. This sealer penetrates deep into the naturalstone thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.

Features:
- No gloss
- Darken surfaces (wet look)
- Enriches color
- UV-resistant
- Water resistant
- Stain protection
- Allows vapor transmission
- Non film-former
- Easier to clean and maintain
- Works at above 40°F (4°C)
- For use on salt water pool patio areas

Helps resist:
- Corrosion from de-icing salt
- Effects from UV rays
- Motor oil and grease stains

Coverage:
- Granite: 400-600 sq. ft. per gallon
- Travertine: 500-700 sq. ft. per gallon
- Limestone: 300-500 sq. ft. per gallon
- Sandstone: 200-400 sq. ft. per gallon
- Bluestone: 200-400 sq. ft. per gallon

Coverages are approximate and will vary based on stone porosity, joint width and other factors.

For use on: For natural stones such as Granite, Slate, Marble, Limestone, Travertine, Sandstone, Flagstone, Blue stone, flamed & textured stone. Also recommended for concrete/masonry. Exterior & Interior.

Please note
1. Natural stones should only be sealed 60 days after their installation date. Consult natural stone manufacturer’s for their recommendation.
2. Natural stones and jointing sand MUST be 100% dry.
3. Temperature should be between 40°F (4°C) and 85°F (29°C) when sealer is applied.
4. Natural stone surface must be cool to the touch when sealer is applied (between 40°F (4°C) and 85°F (29°C)).
5. First clean natural stones with Gator Clean products. Remove all oil, grease and rust stains.
6. Use Gator Efflorescence Cleaner to remove any trapped efflorescence. It also thoroughly cleans the surface to ensure a proper sealer adhesion.
7. Use just one (1) layer of sealer.
8. When using Signature Series Natural Stone Sealer, assure yourself at least 48 hours of dry conditions prior to applying the sealer.
9. Specifically formulated to be used on unsealed surfaces only. Cannot be used as a resealer.
10. Wear protective gloves, eye protection and respiratory protection.
11. Always keep surfaces dry and clean to reduce slip-fall accidents. This sealer is not anti-slip. Precautions should be taken around pools and showers.
Please note (cont.)

12. Do not let it dry (white film or slippery residue may form). If not wiped dry after 5-10 minutes, residu may form. Do not pressure-wash. Not resistant from acids or caustic chemicals. Do not dilute. Not for food handling surfaces. Not for glazed tile or non-porous surfaces. Apply between 70-85°F (21-29°C). Dry residue after a long period may be removed by adding more sealer or mechanically.

Application instructions

1. ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. (0.4 sq. m.) to ensure the results will meet your expectations.
2. Remove all the stains from the natural stones, using Gator Clean products. Use Gator Clean Sealer Stripper to remove any unknown coating that remains on the natural stone surface.
3. Remove all contaminated jointing material and replace with Gator Polymeric Sand. Follow the instructions on the back of the bags for proper sand installation.
4. Wait at least 48 hours at a minimum temperature of 40°F (4°C) and no rain for the Gator Polymeric Sand to properly harden.
5. Clean the entire surface with the Gator Efflorescence Cleaner. This product will remove the efflorescence trapped in the natural stone pores as well as thoroughly clean the surface for proper sealer adhesion.
6. Wait at least 48 hours at a minimum temperature of 40°F (4°C) and no rain so the sand & natural stone surface are dry.
7. Dry surface for 24-72 hrs prior to apply sealer. Apply one (1) coat of Signature Series Natural Stone Sealer using a sprayer (HVLP), nap roller (5-10 mm), squeegee, sponge or rag. Apply in 60 sq. ft. (5.6 sq. m.) sections at a time. Use a foam roller or squeegee to remove excess sealer from the surface. Allow remaining sealer to penetrate 5-10 minutes. Wipe and remove any excess sealer with clean, dry, lint-free cotton cloths. Repeat after 30 minutes if not well sealed (make the test with a drop of water).
8. Signature Series Natural Stone Sealer is water repellent, rain safe, after 24 hours.
9. Let the sealer dry for 8hrs for foot traffic (keep surface dry). Full cure after 72 hrs.

Alliance Designer Products shall not be liable for any non-compliant use.

Coating Category: Waterproofing Concrete/Masonry Sealers. VOC Concentration Limits: <100 g/L (grams of VOC per liter of coating, less water and less exempt compounds). SCAQMD compliant.

Description: SIGNATURE GATOR SEAL FOR WET CAST PRODUCTS is made from acrylic-based polymers. Signature Gator Seal for Wet Cast products penetrates deep into the Wet Cast products, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt. Specifically formulated to be used on unsealed surfaces only.

Features: • Easier to clean and maintain • Low gloss • Film former

Helps resist: • Corrosion from de-icing salt • Effects from UV rays • Motor oil and grease stains

Coverage: • 1 u.s. gal. (3.78 l) covers 175 ft² (16 m²)
• 5 u.s. gal. (18.9 l) covers 875 ft² (80 m²)

For use on: For Wet Cast products

Please note:
1. Wet Cast products should only be sealed 60 days after their installation date. Consult Wet Cast product manufacturer’s for their recommendation.
2. Wet Cast products and jointing sand MUST be 100% dry.
3. Temperature should be between 60°F (16°C) and 85°F (29°C) when sealer is applied.
4. Wet Cast product surface must be cool to the touch when sealer is applied (between 60°F (16°C) and 85°F (29°C)).
5. First clean Wet Cast products with Gator Clean products. Remove all oil, grease and rust stains.
6. Use Gator Efflorescence Cleaner to remove any trapped efflorescence. It also thoroughly cleans the surface to ensure a proper sealer adhesion.
7. Use just one (1) layer of sealer.
8. When using Gator Seal, assure yourself at least 48 hours of dry conditions prior to applying the sealer.
9. Specifically formulated to be used on unsealed surfaces only. Cannot be used as a resealer.
10. Wear protective gloves, eye protection and respiratory protection.

Application instructions:
1) ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. (0.4 sq. m.) to ensure the results will meet your expectation.
2) Remove all the stains from the Wet Cast products, using Gator Clean products. Use Gator Clean Sealer Stripper to remove any unknown coating that remains on the surface of Wet Cast products.
3) Remove all contaminated jointing material and replace with Gator Polymeric Sand. Follow the instructions on the back of the bags for proper sand installation.
4) Wait at least 48 hours at a minimum temperature of 60°F (16°C) and no rain for the Gator Polymeric Sand to properly harden.
5) Clean the entire surface with the Gator Efflorescence Cleaner. This product will remove the efflorescence trapped in the Wet Cast product pores as well as thoroughly clean the surface for proper sealer adhesion.
Application instructions (cont.):

6) Wait at least 48 hours at a minimum temperature of 60°F (16°C) and no rain so the sand & Wet Cast product surface are dry.

7) Best Practice: (See online video. 2 people needed.) Apply one (1) coat of Gator Seal using a sprayer in 60 sq. ft. sections, then use a solvent-resistant foam roller to remove the excess sealer left on the surface.

8) Signature Series Wet Cast Sealer is water repellant, rain safe, after 90 min.

9) Let the sealer dry for 24 hours before using the sealed area.

This sealer is to be employed without thinning or diluting under normal environmental conditions. Use acetone for cleaning. Alliance Designer Products shall not be liable for any non-compliant use.

Coating Category: Low Solids Coatings. VOC Concentration Limits: <120 g/L (grams of VOC per liter of material). Compliant to SCAQMD.

Keep out of the reach of children. Contains: Xylene (CAS # 1330-20-7).

DANGER! FLAMMABLE LIQUID AND VAPOR. VAPORS MAY CAUSE FLASH FIRE. HARMFUL OR FATAL IF SWALLOWED. VAPOR HARMFUL. SKIN IRRITANT. Inhalation may cause irritation. May also affect the brain and nervous system causing dizziness, headache or nausea. Contains material which may cause liver and kidney damage. Possible developmental hazard – contains material which may adversely affect the developing fetus, based on animal data. Use only with adequate ventilation. Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Wear protective gloves, eye protection and respiratory protection. Do not swallow. Wash thoroughly after handling. Replace cap after use. Keep away from heat, sparks, and open flame. Do not smoke, extinguish all flames and pilot lights, and turn off other sources of ignition during use and until all vapors are gone. FIRST AID: If swallowed, call a physician or Poison Control Center immediately. Do not induce vomiting. If in eyes, immediately rinse with water for at least 15 minutes and get medical attention. In case of skin contact, wash thoroughly with mild soap and running water. Remove contaminated clothing. If breathed in, move person to fresh air. Call a physician.

TECHNICAL DATA SHEET

Update: August 18, 2016
Make sure you have an updated data sheet on hand.
Canada and U.S. dial 1-855-847-7767 or (450) 624-1611

Description: Gator Hybrid Seal is 100% pure high-grade acrylic used to seal concrete pavers. It penetrates deep into the concrete paver pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.

For use on: For Dry Cast concrete pavers.

Features:
- Works above 40°F (5°C)
- Will not discolor
- Breathable
- Film former
- Joint stabilizer
- Can be applied on damp surface
- Rain-safe after 24 hours

Helps resist:
- Corrosion from de-icing salt
- Effects from UV rays
- Motor oil and grease stains

Coverage: Coverage will vary depending on joint size and porosity of the surface of the concrete pavers.

Options for Using GATOR HYBRID SEAL
1. Can be used as a stand alone sealer. Apply at the rate of 200 sq.ft. (18.5 m²) per gallon. Spray on the surface and back roll if needed to even out the surface.
2. Can be used as a Sealer/Joint Sand Stabilizer w/ ASTM C144 Sand. Apply at the rate of 100 sq.ft. (9.3 m²) per gallon, then force the excess sealer from the surface into the joints using a squeegee or roller.

Please Note
1. Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer’s for their recommendation.
2. ALWAYS TEST the product on a small hidden area of approximately 4 sq.ft. (0.4 m²) to ensure the results will meet your expectations.
3. Clean the entire surface with the Gator Clean Efflorescence Cleaner. This product will remove the efflorescence trapped in the concrete paver pores, as well as thoroughly clean the surface for proper sealer adhesion.
4. Do not apply if rain is expected within 24 hours.
5. Do not allow sealer to puddle.
6. Temperature should be between 40°F (5°C) and 85°F (29°C) when sealer is applied.
7. Concrete paver surface must be cool to the touch when sealer is applied (between 40°F (5°C) and 85°F (29°C)).
8. Gator hybrid seal is water repellant, rain safe, after 24 hours.
9. Let the sealer dry for 24 hours before using the sealed area.
10. Wear protective gloves, eye protection and respiratory protection.
LIMITED WARRANTY:

TECHNICAL DATA SHEET

Update: August 18, 2016
Make sure you have an updated data sheet on hand.
Canada and U.S. dial 1-855-847-7767 or (450) 624-1611

Description: Gator Hybrid Seal is 100% pure high-grade acrylic used to seal concrete pavers. It penetrates deep into the concrete paver pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.

For use on: For Dry Cast concrete pavers

Features:
• Works above 40˚F (5˚C)
• Will not discolor
• Breathable
• Film former
• Joint stabilizer
• Can be applied on damp surface
• Rain-safe after 24 hours

Helps resist:
• Corrosion from de-icing salt
• Effects from UV rays
• Motor oil and grease stains

Coverage:
Coverage will vary depending on joint size and porosity of the surface of the concrete pavers.

Options for Using GATOR HYBRID SEAL
1. Can be used as a stand alone sealer. Apply at the rate of 200 sq.ft. (18.5 m²) per gallon. Spray on the surface and back roll if needed to even out the surface.
2. Can be used as a Sealer/Joint Sand Stabilizer w/ ASTM C144 Sand. Apply at the rate of 100 sq.ft. (9.3 m²) per gallon, then force the excess sealer from the surface into the joints using a squeegee or roller.

Please Note
1. Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer's for their recommendation.
2. ALWAYS TEST the product on a small hidden area of approximately 4 sq.ft. (0.4 m²) to ensure the results will meet your expectations.
3. Clean the entire surface with the Gator Clean Efflorescence Cleaner. This product will remove the efflorescence trapped in the concrete paver pores, as well as thoroughly clean the surface for proper sealer adhesion.
4. Do not apply if rain is expected within 24 hours.
5. Do not allow sealer to puddle.
6. Temperature should be between 40°F (5°C) and 85°F (29°C) when sealer is applied.
7. Concrete paver surface must be cool to the touch when sealer is applied (between 40°F (5°C) and 85°F (29°C)).
8. Gator hybrid Seal is water repellant, rain safe, after 24 hours.
9. Let the sealer dry for 24 hours before using the sealed area.
10. Wear protective gloves, eye protection and respiratory protection.

TECHNICAL DATA SHEET

Update: April 13, 2016
Make sure you have an updated data sheet on hand.
Canada and U.S. dial 1-855-847-7767 or (450) 624-1611

Description: GATOR SEAL SIGNATURE NATURAL LOOK is made from fluorochemical polymers. This sealer penetrates deep into the concrete pavers, walls, masonry and natural stones, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.
-WATER-BASED
-ZERO GLOSS / NATURAL FINISH

Features:
• Non film-former
• Water repellant
• Works at above 32°F (0°C)
• Zero gloss

Helps resist:
• Corrosion from de-icing salt
• Effects from UV rays
• Motor oil and grease stains
• Stains up to 10 years

Coverage:
• 1 u.s. gal. (3.78 l) Coverage 175 sq. ft. (16m²)
• 5 u.s. gal. (18.9 l) Coverage 875 sq. ft. (80m²)

For use on: For Dry Cast concrete pavers, walls, masonry and natural stones.

PLEASE NOTE
1. Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer's for their recommendation.
2. Concrete pavers and jointing sand MUST be 100% dry.
3. Temperature should be between 32°F (0°C) and 85°F (29°C) when sealer is applied.
4. Concrete paver surface must be cool to the touch when sealer is applied (between 32°F (0°C) and 85°F (29°C)).
5. First clean concrete pavers with Gator Clean products. Remove all oil, grease and rust stains.
6. Use Gator Efflorescence Cleaner to remove any trapped efflorescence. It also thoroughly cleans the surface to ensure a proper sealer adhesion.
7. Use just one (1) layer of sealer.
8. Signature Series Natural Look Sealer can be applied on dry or damp surfaces.
9. Specifically formulated to be used on unsealed surfaces only. Cannot be used as a resealer.
10. Wear protective gloves, eye protection and respiratory protection.

APPLICATION INSTRUCTIONS
1. ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. (0.4 sq. m.) to ensure the results will meet your expectations.
2. Remove all the stains from the concrete pavers, using Gator Clean products. Use Gator Clean Sealer Stripper to remove any unknown coating that remains on the concrete paver surface.
3. Remove all contaminated jointing material and replace with Gator Polymeric Sand. Follow the instructions on the back of the bags for proper sand installation.
4. Wait at least 48 hours at a minimum temperature of 32°F (0°C) and no rain for the Gator Polymeric Sand to properly harden.
APPLICATION INSTRUCTIONS (CONT.):

5. Clean the entire surface with the Gator Efflorescence Cleaner. This product will remove the efflorescence trapped in the concrete paver pores as well as thoroughly clean the surface for proper sealer adhesion.
6. Wait at least 48 hours at a minimum temperature of 32°F (0°C) and no rain so the sand & concrete paver surface are dry.
7. Best Practice: (See online video, 2 people needed.) Apply one (1) coat of Signature Series Natural Look Sealer using a sprayer in 60 sq. ft. sections, then use a solvent-resistant foam roller to remove the excess sealer left on the surface.
8. Signature Series Natural Look Sealer is water repellent, rain safe, after 90 min.
9. Let the sealer dry for 24 hours before using the sealed area.

Alliance Designer Products shall not be liable for any non-compliant use.

Coating Category: Low Solids Coatings. VOC Concentration Limits: <5 g/L (grams of VOC per liter of material). SCAQMD compliant.

LIMITED WARRANTY:

10 YEARS LIMITED WARRANTY (SEE DETAILS BELOW) BEFORE APPLYING THE PRODUCT, THE USER/BUYER MUST DETERMINE ITS SUITABILITY FOR INTENDED USE AND USER/BUYER ASSUMES ALL RISKS IN THAT REGARD. IT IS A CONDITION OF THE LIMITED WARRANTY THAT BEFORE USING THE PRODUCT ON THE INTENDED LARGER AREA, THE USER/BUYER MUST FIRST TEST THE PRODUCT ON A SMALL LESS OBSERVED AREA OF APPROXIMATELY 4 SQ. FT. (0.4 M²) TO ENSURE RESULTS MEET USER/BUYER’S EXPECTATIONS. IN THE EVENT THAT NO TEST IS CARRIED OUT, THE LIMITED WARRANTY WILL ONLY APPLY TO 4 SQ. FT. (0.4 M²). THE CONTAINER MUST AT ALL TIMES BE STORED AT ABOVE 32°F / 0°C TO RECEIVE THE BENEFIT UNDER THE LIMITED WARRANTY. PLEASE NOTE THAT THIS LIMITED WARRANTY APPLIES ONLY WHEN THE PRODUCT PURCHASED IS USED FOR THE FOLLOWING PURPOSES AND ON THE FOLLOWING SURFACES: 1. Residential Purposes (Homeowners or contractors using the product for single or multi-unit dwellings that are used exclusively for residential use) on: • Horizontal surfaces • Vertical surfaces (walls and masonry) 2. Commercial or Other Purposes (“Other Purposes” include mixed-use, institutional or non-residential purpose) on only: • Vertical surfaces (walls and masonry) ALLIANCE DESIGNER PRODUCTS INC cannot guarantee results as it has no control over surface preparation and product application. However, for a period of 10 years from date of purchase, ALLIANCE DESIGNER PRODUCTS INC agrees that, if the product is proven to be defective with respect to the specific purposes and surfaces stated above, and on the condition that it was applied pursuant to the method of application described in the applicable instructions, then ALLIANCE DESIGNER PRODUCTS INC agrees to refund the purchase price. Proof of purchase is required for any claim. The parties agree that the refund of the purchase price as stated is the only obligation of the ALLIANCE DESIGNER PRODUCTS INC. In all events, ALLIANCE DESIGNER PRODUCTS INC. shall not be liable for any other damages or costs (including, without limitation, removal or reinstallation of pavers, bricks, stones, sand or mortar) whatsoever, direct or consequential. TO THE EXTENT PERMITTED BY LAW, ALLIANCE DESIGNER PRODUCTS INC EXPRESSLY EXCLUDES ANY IMPLIED OR LEGAL WARRANTY OF QUALITY, MERCHANTABILITY OR FITNESS FOR PURPOSE.

1 YEAR LIMITED WARRANTY Please note that when the product is used for COMMERCIAL or OTHER PURPOSES (as described above) on: • Horizontal surfaces the Limited Warranty is for 1 year from the date of purchase. Except that the duration of the warranty is limited to one (1) year, all the terms, conditions and exclusions mentioned above for a claim also apply.

DANGEROUS FUMES FORM WHEN MIXED WITH OTHER CHEMICALS. DO NOT GET IN EYES OR ON SKIN OR CLOTHING. KEEP OUT OF REACH OF CHILDREN. FIRST AID TREATMENT: If swallowed, call Poison Control centre or doctor immediately. Do not induce vomiting. If in eyes rinse well with water for at least 15 minutes. If on skin, rinse well with water.
TECHNICAL DATA SHEET

Update: August 18, 2016
Make sure you have an updated data sheet on hand.
Canada and U.S. dial 1-855-847-7767 or (450) 624-1611

Description: GATOR SEAL RESEALER for concrete pavers is made from acrylic based polymers. Gator Seal Resealer will penetrate the formula of the existing sealer and reactivate the molecules to create a rejuvenated seal to protect the concrete paver surface. Thus reducing the penetration of oil and dirt, as well as protecting them from de-icing salt.

Features:
• Easier to clean and maintain
• Solvent based.
• Can be applied over Gator Wet Look and Satin Look sealers
• Film former
• Rejuvenates surface

Helps resist:
• Corrosion from de-icing salt
• Effects from UV rays
• Motor oil and grease stains

Coverage:
• 1 u.s. gal. (3.78 l) covers 175 ft² (16m²)
• 5 u.s. gal. (18.9 l) covers 875 ft² (80m²)

For use on: For dry cast concrete pavers

Please note:
1) Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer’s for their recommendation.
2) Concrete pavers & jointing sand MUST be 100% dry.
3) Temperature should be between 60°F / 16°C to 85°F / 29°C when sealer is applied.
4) Concrete paver surface temperature should be between 60°F / 16°C to 85°F / 29°C and concrete paver surface must be cool to the touch when sealer is applied.
5) GATOR EFFLORESCENCE CLEANER to remove ground in dirt from the surface of concrete pavers. It will make the concrete pavers look clean and vibrant. Applying Gator Efflorescence Cleaner before a Gator Seal Resealer application will assure you of a deeper penetration into the cleaned surface.
6) Just use 1 layer of GATOR SEAL RESEALER.
7) When using Gator Seal Resealer assure yourself at least 48 hours of dry conditions prior to applying Gator Seal Resealer. If temperature is above 60°F / 15°C the surface should dry within hours.
8) Wear protective gloves, eye protection and respiratory protection.

Application instructions:
1) ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. (0.4 sq. m.) to ensure the results will meet your expectations.
2) Before commencing the project ensure that there is no rain forecasted for the next 24 hours.
3) First clean concrete pavers with Gator Clean products. Remove all oil, grease and rust stains. Use Gator Efflorescence Cleaner to thoroughly clean the surface to ensure a proper Gator Seal Resealer adhesion.
4) Wait at least 48 hours at a minimum temperature of 60°F / 15°C and no rain so the Gator Polymeric sand & concrete paver surface are dry.
Application instructions (cont.):

5) Apply coat of Gator Seal Resealer using a foam roller.
6) Gator Resealer is water repellant, rain safe, after 90 min.
7) Let it dry for 24 hours before using the sealed area.

This sealer is to be employed without thinning or diluting under normal environmental conditions. Use acetone for cleaning. Alliance Designer Products shall not be liable for any non-compliant use.

Coating Category: Low Solids Coatings. VOC Concentration Limits: <120 g/L (grams of VOC per liter of material).

LIMITED WARRANTY:

Before applying the product, the user/buyer must determine its suitability for intended use and user/buyer assumes all risks in that regard. It is a condition of the Limited Warranty that before using the product on the intended larger area, the user/buyer must first test the product on a small less observed area of approximately 4 sq. ft. (0.4 sq. m.) to ensure results meet user/buyer’s expectations. In the event that no test is carried out, the Limited Warranty will only apply to 4 sq. ft. (0.4 sq. m.). ALLIANCE DESIGNER PRODUCTS INC. cannot guarantee results as it has no control over surface preparation and product application. If this product is proven to be defective, on the condition that it was applied pursuant to the required method of application and surface preparation, the sole obligation ALLIANCE DESIGNER PRODUCTS INC. is to refund the purchase price. Proof of purchase is required for any claim. ALLIANCE DESIGNER PRODUCTS INC. shall not be liable for any other damages whatsoever, direct or consequential. To the extent permitted by law, ALLIANCE DESIGNER PRODUCTS INC. excludes any implied warranty of quality, merchantability or fitness for purpose. The container must at all times be stored at above 32°F (0°C) and away from direct sun to receive the benefit under the Limited Warranty.

Keep out of the reach of children. Contains: Xylene (CAS # 1330-20-7).
DANGER! FLAMMABLE LIQUID AND VAPOR. VAPORS MAY CAUSE FLASH FIRE. HARMFUL OR FATAL IF SWALLOWED. VAPOR HARMFUL. SKIN IRRITANT. Inhalation may cause irritation. May also affect the brain and nervous system causing dizziness, headache or nausea. Contains material which may cause liver and kidney damage. Possible developmental hazard – contains material which may adversely affect the developing fetus, based on animal data. Use only with adequate ventilation. Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Wear protective gloves, eye protection and respiratory protection. Do not swallow. Wash thoroughly after handling. Replace cap after use. Keep away from heat, sparks, and open flame. Do not smoke, extinguish all flames and pilot lights, and turn off other sources of ignition during use and until all vapors are gone. FIRST AID: If swallowed, call a physician or Poison Control Center immediately. Do not induce vomiting. If in eyes, immediately rinse with water for at least 15 minutes and get medical attention. In case of skin contact, wash thoroughly with mild soap and running water. Remove contaminated clothing. If breathed in, move person to fresh air. Call a physician.

Description: GATOR SEAL SATIN LOOK Sealer is made from acrylic-based polymers. GATOR SEAL SATIN LOOK Sealer penetrates deep into the concrete pavers, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt. Specifically formulated to be used on unsealed surfaces only.

Features:
• Easier to clean and maintain
• Solvent-based
• Film former
• Low-gloss finish
• Joint stabilizer

Helps resist:
• Corrosion from de-icing salt
• Effects from UV rays
• Motor oil and grease stains

Coverage:
• 1 u.s. gal. (3.78 l) covers 175 ft² (16 m²)
• 5 u.s. gal. (18.9 l) covers 875 ft² (80 m²)

For use on: for dry cast concrete pavers

Please note:
1. Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer’s for their recommendation.
2. Concrete pavers and jointing sand MUST be 100% dry.
3. Temperature should be between 60°F (16°C) and 85°F (29°C) when sealer is applied.
4. Concrete paver surface must be cool to the touch when sealer is applied (between 60°F (16°C) and 85°F (29°C)).
5. First clean concrete pavers with Gator Clean products. Remove all oil, grease and rust stains.
6. Use Gator Efflorescence Cleaner to remove any trapped efflorescence. It also thoroughly cleans the surface to ensure a proper sealer adhesion.
7. Use just one (1) layer of sealer.
8. When using Gator Seal Satin Look Sealer, assure yourself at least 48 hours of dry conditions prior to applying the sealer.
9. Specifically formulated to be used on unsealed surfaces only. Cannot be used as a resealer.
10. Wear protective gloves, eye protection and respiratory protection.

Application instructions:
1) ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. (0.4 sq. m.) to ensure the results will meet your expectations.
2) Remove all the stains from the concrete pavers, using Gator Clean products. Use Gator Clean Sealer Stripper to remove any unknown coating that remains on the concrete paver surface.
3) Remove all contaminated jointing material and replace with Gator Polymeric Sand. Follow the instructions on the back of the bags for proper sand installation.
4) Wait at least 48 hours at a minimum temperature of 60°F (16°C) and no rain for the Gator Polymeric Sand to properly harden.

Description: GATOR SEAL WET LOOK SEALER is made from acrylic-based polymers. GATOR SEAL WET LOOK SEALER penetrates deep into the concrete pavers, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt. Specifically formulated to be used on unsealed surfaces only.

Features:
• Easier to clean and maintain
• Solvent-based
• Film Former
• High-gloss finish
• Joint stabilizer

Helps resist:
• Corrosion from de-icing salt
• Effects from UV rays
• Motor oil and grease stains

Coverage:
• 1 u.s. gal. (3.78 l) covers 175 ft² (16 m²)
• 5 u.s. gal. (18.9 l) covers 875 ft² (80 m²)

For use on: for dry cast concrete pavers

Please note:
1. Concrete pavers should only be sealed 60 days after their installation date. Consult concrete paver manufacturer's for their recommendation.
2. Concrete pavers and jointing sand MUST be 100% dry.
3. Temperature should be between 60°F (16°C) and 85°F (29°C) when sealer is applied.
4. Concrete paver surface must be cool to the touch when sealer is applied (between 60°F (16°C) and 85°F (29°C)).
5. First clean concrete pavers with Gator Clean products. Remove all oil, grease and rust stains.
6. Use Gator Efflorescence Cleaner to remove any trapped efflorescence. It also thoroughly cleans the surface to ensure a proper sealer adhesion.
7. Use just one (1) layer of sealer.
8. When using Gator Seal Wet Look Sealer, assure yourself at least 48 hours of dry conditions prior to applying the sealer.
9. Specifically formulated to be used on unsealed surfaces only. Cannot be used as a resealer.
10. Wear protective gloves, eye protection and respiratory protection.

Application instructions:
1) ALWAYS TEST the product on a small hidden area of approximately 4 sq. ft. (0.4 sq. m.) to ensure the results will meet your expectations.
2) Remove all the stains from the concrete pavers, using Gator Clean products. Use Gator Clean Sealer Stripper to remove any unknown coating that remains on the concrete paver surface.
3) Remove all contaminated jointing material and replace with Gator Polymeric Sand. Follow the instructions on the back of the bags for proper sand installation.
4) Wait at least 48 hours at a minimum temperature of 60°F (16°C) and no rain for the Gator Polymeric Sand to properly harden.
5) Clean the entire surface with the Gator Efflorescence Cleaner. This product will remove the efflorescence trapped in the concrete paver pores as well as thoroughly clean the surface for proper sealer adhesion.
Application instructions (cont.):

6) Wait at least 48 hours at a minimum temperature of 60°F (16°C) and no rain so the sand & concrete paver surface are dry.
7) Best Practice: (See online video. 2 people needed.) Apply one (1) coat of Gator Seal Wet Look Sealer using a sprayer in 60 sq. ft. sections, then use a solvent-resistant foam roller to remove the excess sealer left on the surface.
8) Gator Seal Wet Look Sealer is water repellent, rain safe, after 90 min.
9) Let the sealer dry for 24 hours before using the sealed area.

This sealer is to be employed without thinning or diluting under normal environmental conditions. Use acetone for cleaning. Alliance Designer Products shall not be liable for any non-compliant use.

Coating Category: Waterproofing Concrete/Masonry Sealers. VOC Concentration Limits: <400 g/L (grams of VOC per liter of coating, less water and less exempt compounds).

LIMITED WARRANTY:

Before applying the product, the user/buyer must determine its suitability for intended use and user/buyer assumes all risks in that regard. It is a condition of the Limited Warranty that before using the product on the intended larger area, the user/buyer must first test the product on a small less observed area of approximately 4 sq. ft. (0.4 sq. m.) to ensure results meet user/buyer’s expectations. In the event that no test is carried out, the Limited Warranty will only apply to 4 sq. ft. (0.4 sq. m.). ALLIANCE DESIGNER PRODUCTS INC. cannot guarantee results as it has no control over surface preparation and product application. If this product is proven to be defective, on the condition that it was applied pursuant to the required method of application and surface preparation, the sole obligation ALLIANCE DESIGNER PRODUCTS INC. is to refund the purchase price. Proof of purchase is required for any claim. ALLIANCE DESIGNER PRODUCTS INC. shall not be liable for any other damages whatsoever, direct or consequential. To the extent permitted by law, ALLIANCE DESIGNER PRODUCTS INC. excludes any implied warranty of quality, merchantability or fitness for purpose. The container must at all times be stored at above 32°F (0°C) and away from direct sun to receive the benefit under the Limited Warranty.

Keep out of the reach of children. Contains: Xylene (CAS # 1330-20-7). DANGER! FLAMMABLE LIQUID AND VAPOR. VAPORS MAY CAUSE FLASH FIRE. HARMFUL OR FATAL IF SWALLOWED. VAPOR HARMFUL. SKIN IRRITANT. Inhalation may cause irritation. May also affect the brain and nervous system causing dizziness, headache or nausea. Contains material which may cause liver and kidney damage. Possible developmental hazard – contains material which may adversely affect the developing fetus, based on animal data. Use only with adequate ventilation. Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Wear protective gloves, eye protection and respiratory protection. Do not swallow. Wash thoroughly after handling. Replace cap after use. Keep away from heat, sparks, and open flame. Do not smoke, extinguish all flames and pilot lights, and turn off other sources of ignition during use and until all vapors are gone. FIRST AID: If swallowed, call a physician or Poison Control Center immediately. Do not induce vomiting. If in eyes, immediately rinse with water for at least 15 minutes and get medical attention. In case of skin contact, wash thoroughly with mild soap and running water. Remove contaminated clothing. If breathed in, move person to fresh air. Call a physician.
