COUNTRY STONE
FIREPLACE INSTALLATION GUIDE

FIREPLACE MATERIALS LIST:

- 500 Country Stone Units
- Fireplace Insert
- 1 Flu Pipe (12” x 16” 24”)
- 2 Modular or Unit Caps (24” x 33”)

NOTE: Fireplace should be built on a level concrete footing. Detail shown can be dry-stacked or bonded with exterior grade construction adhesive. This Fireplace Guide is meant to provide estimating quantities and suggested laying details only for fireplace construction. It is not intended to eliminate the need to consult regional zoning and construction regulations regarding fire devices.
*Blocks that appear darker represent cuts. Specific measurements will vary from installation to installation.
