

LAMPUS TRAINING PROGRAM

OUR GOAL

Our training program at R.I. Lampus exists to provide industry best practice education to our contracting community leading to improved construction of hardscape projects throughout our region.

As our regions longest running producer of concrete paving stones and retaining wall units, R.I. Lampus is vested in our industry and our customers. That is why we started our training program. We strive to bring quality education to our contracting community focusing on quality, efficiency, and safety.
