

VERSA-LOK®

STANDARD DOUBLE-FACE FREE-STANDING END GUIDE

HALF BOND LAYER DETAIL:

QUARTER BOND LAYER DETAIL:

NOTES:

- This detail shows how to create a finished end on a Versa-Lok® Standard Double-Face Free-Standing wall using Standard Solid blocks (shown in gray)
 - This detail shows half bond and quarter bond options
- The dotted line shows where the Standard Solid block should be split.
- The measurements shown are nominal and may vary from job to job.
 - When installing, alternate the layers to stagger the bond
- It is recommended the corner blocks are bonded with masonry adhesive
